Monthly Financial Report — Sample B

实验合成初始输入 | 按原用户与出现轮次约束恢复用途；原真实全文与版式未认证。

Unit	CNY
Revenue	200000
Net profit	60000
Closing cash	160000

Period and basis

Experimental monthly financial statement, CNY. Independent source sample 2; not the actual original company data. All three statements reconcile and this file is not a service agreement.

Income statement

Revenue 200000; cost of sales 80000; operating expenses 60000; net profit 60000. No tax expense is assumed in this simplified simulation.

Balance sheet

Closing cash 160000; other assets 40000; total assets 200000; liabilities 40000; equity 160000; assets equal liabilities plus equity.

Cash flow

Opening cash 100000; operating net inflow 60000; investing cash flow 0; financing cash flow 0; closing cash 160000. Opening equity 100000 plus current profit 60000 equals closing equity.
